How to select the sum insured?

- Sum Insured of a property should represent the Market Value.
- Where more than one building (and contents) are insured under a single policy, block wise values shall be furnished in respect of Building, Plant & Machinery, Stocks and other contents.
- In case the value of a property increases due to factors like increase in prime cost, Exchange rate etc. during the currency of the policy, the corresponding sum insured may be increased on payment of proportionate premium.
- Similarly, any reduction in sum insured during currency may be effected for which refund of premium will be allowed on short period basis.
- Following guidelines, though not exhaustive, are provided for arriving at the sums to be insured for various properties :

Property	Base of Insurance	Sum Insured
1. Building		
(a) Completed	Depreciated Value Basis	Estimated cost of Reinstatement (material + Labour) of a similar property as on the date of proposal with suitable escalation for the policy period less depreciation for age.
	Reinstatement Value Basis	Same as above but without depreciation. In other words, the policy will pay, in the event of loss/ damage, without any deduction for depreciation.
(b) In course of Construction	Reinstatement Value Basis	Estimated Total completed value (Material + Labour)
2. Plant & Machinery		
(a) Bought II hand	Market Value	Estimated landed cost of replacement of a similar machine of the same kind and capacity as on the date of proposal with suitable escalation over the policy period less depreciation for age and usage for number of years from the date of manufacturing (and not from the year in which it was bought)
